

Overview of the activity

This activity will allow you to see the benefits of using digital assessment tools as well as combining them with traditional ones. It will help you to decide what is more convenient for you and your learners to make learning more interactive, engaging and exciting.

Objective of the activity

Objective 1: To outline the main advantages of different types of assessment methods – traditional ones and digital ones

Objective 2: To outline the main benefits of different types of assessment methods

Objective 3: To outline some measures how to compensate limitations

Lesson / Session Plan.

What are the steps to complete the activity?

1. Take the Handout “Resource 1”

2. For each assesment method try to write at least 2 advantages and 2 limitations. When analyzing the 2nd and 3rd columns, consider who your learners are, what they are excited about, what is their age group, are they familiar with digital tools, would they be interested, what is the essence of the training/lesson, whether you find it easy to use such tools, how they would improve/deteriorate the learning process

3. In the last column, for each of the limitations you mentioned, give a suggestion on how to compensate for it so that it does not hinder the learning process, but improves it

Evaluation of activity

The evaluation might be done by peer-to-peer review or trainer feedback

Materials:

The following materials will be needed:

·Handout “Resource 1”

·Pens, post-it notes and tape (for face-to-face setting) or a suitable collaborative software (for online setting)

MAP - Motivate. Act. Promote - n. 2020-1-ES01-KA204-081780

Handout "Resource 1"

Type of assessment method	Advantages	Limitations	Measures how to compensate limitations
Only traditionals			
Only digital tools			
Combination of traditional methods and digital tools
