MOTIVATE ADULTS TO GET INVOLVED

Motivate, Act, Promote

MAP stands for Motivate, Act, and Promote. These three concepts are key when it comes to adult educators who need not only to motivate adults to get involved in lifelong learning, but also to implement quality-training activities often addressing audiences that are most of the time difficult to reach: adults with low educational attainment, immigrants, long-term unemployed and people aged over 45...

Project number 2020-1-ES01-KA204-081780

Beneficiaries and Outputs

The direct beneficiaries of the project are the trainers who work with vulnerable adults (migrants, unemployed, etc...) and the managers of the training centers. The indirect beneficiaries will be training participants, local authorities, and training centers.

The project will develop two Intellectual Outputs:

- a blended course intended for trainers, integrated with a tools bank useful for building one's own lessons and programs;
- a digital handbook to promote teaching strategies and digital tools for teaching.

MAP website is online!

Have you visited our website www.mapproject.eu?

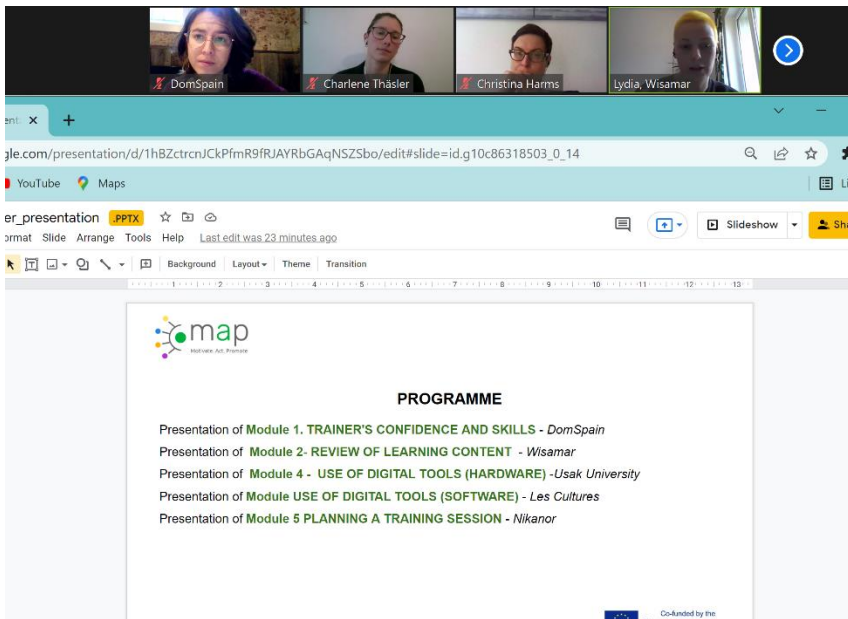

If you haven't, we strongly recommend doing so, it contains several useful tools for your training activity!

In the "Train" section you will find a course about how to blend your educational programs. It consists in five modules about different issues related to teaching: trainer's confidence and skills, review of learning content, use of digital tools (both software and hardware) and planning a training session.

In the "Visual material" section we uploaded some articles written by the partners about the course's module they worked on. Articles are both research material and previews of the course mentioned above. We will keep on updating this section until the end of the project with new contributions.

"Tool bank" and "Digital handbook" sections are blank because we are still working on their contents.

For an optimal experience we recommend that you visit the website in English. Translations in Bulgarian, German, Italian, Turkish and Spanish are not available yet for all contents, but they will soon.

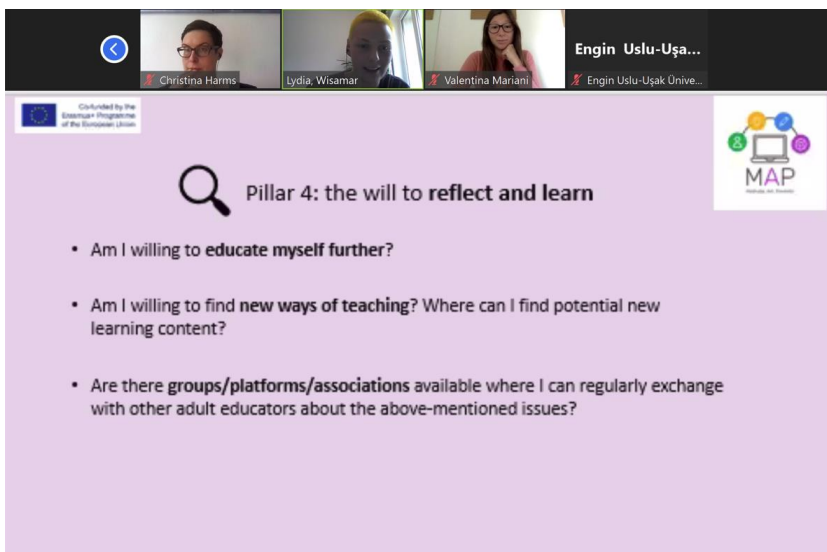

Online Learning, Teaching, Training Activity

February 9th – 11th, 2022

In the previous newsletter we wrote about the three-day Learning, Teaching, Training Activity for trainers, teachers, and education managers that took place at the end of January in Sofia (Bulgaria).

Due to the pandemic, only some members of the partnership could attend it in person, so an online activity was organized from 9th to 11th February to allow those who couldn't to be trained.

Participants from Les Cultures, Wisamar and Usak University attended the online LTTA, where they were updated on the digital skills applied to teaching and the strategies for motivating and involving vulnerable adult students.

Getting ready for Leipzig!

Online meeting, 7th June 2022

On 7th June the partnership met online.

We went through the work done so far in the frame of the third Intellectual Output of the project, that aims at realizing a digital handbook on online and offline promotional strategies of educational offers for adult educators and educational managers.

DomSpain has worked at the layout of this important tool, that will be available on our website in English in few weeks and by September in all partners' languages.

Also, actions for the dissemination of the project have been discussed. We agreed on keeping on writing articles about the contents of the training module to enrich the visual materials section of the website.

The last part of the meeting was dedicated to the organization of the next and last transnational project meeting.

It will take place on 18th-19th October 2022 in Leipzig, where partners will be hosted by the German partner Wisamar.
